

# Iomega® TV with Boxee

Experience Internet TV.

Watching your movies and shows on the Internet just got a whole lot better.

Take your favorite Internet shows from the computer screen – to the widescreen.

Introducing the Iomega TV with Boxee. It takes everything you love about the Internet – TV shows, movies, music and more – and puts it directly on your HDTV. At the same time, you can manage, share and store up to 2TB of your most important digital content.

- Boxee software
- Full web access
- 1080p HD
- Iomega Personal Cloud
- Wireless Built-in
- DLNA and DTS Certified
- Intel Inside®
- Adobe Flash Player support
- Gigabit LAN (10/100/1000 Mbps)
- QWERTY Dual-sided remote included
- Advanced network management capability

**Put down the mouse. Move away from the computer.**

Well, you can keep the mouse if you want. Or use your remote. The point is, anything you can get on the Internet – you can now get on your HDTV.

Blast your music through your home theater system. Watch live video or stream movies on demand. Surf the web. Settle in for a slideshow of your latest vacation photos. All on the biggest TV in your house.

And you can always watch the movies, photos and videos you have stored in your personal collection too.

**It's the only technology of its kind.**

The Iomega TV with Boxee also offers advanced network capabilities including storage, backup, media serving and shared access – which means you can save, manage and share all of your videos and photos over your home network. Plus, you can access your information anytime, anywhere.

So you get the best of both worlds – entertainment and storage. There's simply nothing else like it.

- **Watch what you want – when you want.** Get thousands of TV shows and movies directly from Internet. You can browse, search, select and enjoy – all you need is an Internet connection. The Iomega TV with Boxee does the rest.
- **A huge movie library – right at your fingertips.** Stream thousands of movies from sites like YouTube and other Video On Demand services already/soon available in your country.
- **Share with your friends on Facebook.** Or Twitter, Flickr, and a bunch of other social media sites. Iomega TV with Boxee can automatically deliver recommendations from your friends directly to your TV – and it lets you share your favorites with them too. Plus, you can upload anything that you have stored on your network – movies, photos, you name it.
- **Effortless navigation.** Iomega TV with Boxee makes it so simple to search for a show and watch it. All it takes is a click of the remote. Some people call this a “revolutionary user-interface.” We just call it easy.
- **No fees. Ever.** There’s no recurring fee to use the Iomega TV. Get instant access to all the entertainment the web has to offer, forever. No rules. No contracts. No kidding.
- **Extend reach of movies with Iomega Personal Cloud.** Share movies with your Iomega Friends and access their own library\*. Access your library from anywhere in the world.  
\*Limited to Iomega Personal Cloud enabled devices.
- **Store all of your movies, photos, music and videos – up to 2TB of them.** What does 2TB add up to? 500,000 songs. 800,000 photos. Or 770 hours of video. Or, any combination of them all.

The Iomega QWERTY remote is ideal for Internet access and interaction with Iomega TV. It provides easy and fast text entry. And with its sleek and stylish 2-in-1 design, it means less clutter on your coffee table.
