Scroll Elite is a capacitive touch-screen Android™ 4.0 tablet. Portable, with a highly responsive 9.7" IPS screen, the slim and stylish design is supported by powerful hardware making the Scroll Elite ideal for internet use, gaming, videos and many more applications.

As a powerful media player the Scroll Elite offers unparalleled functionality. Whether you are on the move, where you can take advantage of the 1024 x 768 resolution screen, or at home, the Scroll Elite offers superior video viewing. Plug into your 3D or HD TV or monitor with a high-speed HDMI cable and you can enjoy stunning 3D and 1080p HD content on the big screen.

With a powerful Cortex A8 1.2GHz processor, Mali-400 dual core graphics processor and 1GB RAM Scroll Elite can comfortably handle the requirements of even the most demanding users with ease. An extensive 16GB of built in memory and up to eight hours of use with the long life battery complete this impressive package. Whether it's rich, Flash based content, support for major video and eBook formats, 3D gaming or much more, Scroll Elite offers you the complete solution.
