

EVGA has gone Platinum with the new SuperNOVA 1000 P2 Power Supply! This Power supply is 80 PLUS® Platinum rated with an efficiency of 92% under typical loads. The new ECO Thermal Control Fan System offers Fan RPM modes to provide zero fan noise during low load operations. This provides improved efficiency for longer operation, less power consumption, reduced energy costs and minimal heat dissipation. Backed by a 10year warranty, gain peace of mind from the heart of your system and power up with the EVGA SuperNOVA 1000 P2!

1X 24 Pin ATX

2X 4+4 Pin EPS12V

6X 6+2 Pin PCI-E

2X 6 Pin PCI-E

10X SATA

5X Molex

1X Floppy

FEATURES:

- 80 PLUS® Platinum High Efficiency Power Supply Certified-50% Load (92% Efficiency)
- Superior Vertical Double Layer Main Transformer
- Dual Thermal Control System provides custom Fan RPM modes
- ECO Intelligent Thermal Control Fan system (Zero Fan Noise < 45°C)

- Japanese Nippon Chemi-Con solid state capacitors improves long-term reliability
- High Amperage Single-Rail Design for maximum power and efficiency
- Over Power/Under Power/Over Voltage/Short Circuit protections built in
- Fully modular cable design (Improve airflow/cable management)

Continuous Power:

Trust EVGA to label all of our power supplies in Continuous Power, the steady power a PSU can output, rather than the amount delivered at its short-lived peak.

Fully Modular:

EVGA delivers the highest quality cables possible, with sleeved cables and a fully modular design for optimal cable management and the best looks.

Single 12V Rail:

A single +12V rail offers the best power output, rail stability and compatibility with the latest hardware. EVGA SuperNOVA 1000 P2 provides up to 83.3A on a single rail!

Dual Thermal Control System:

The EVGA ECO Thermal System provides silent operation at low loads, improved efficiency and longer life span of the fan. Reduce ambient noise and energy costs for your total operation with the EVGA Thermal Control System.

OUTPUT:

Rail	+5V	+3.3V	+12V	-12V	+5Vsb
Max output	20	20A	83.3A	0.5A	2.5A
	100W		999.6W	6W	12.5W
Total	1002W				

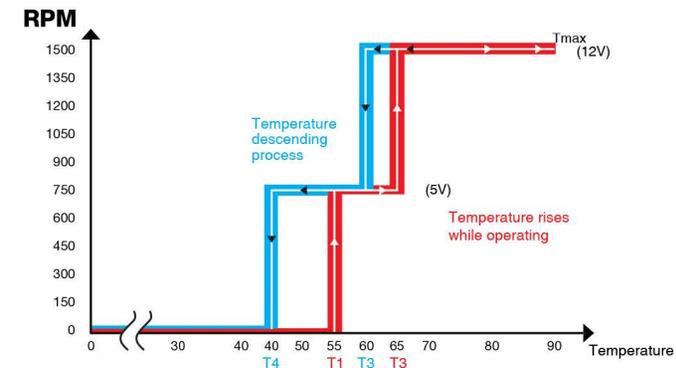

INPUT:

Input Voltage	100 ~ 240 VAC
AC Input	15A
Input Frequency Range	50 ~ 60 Hz
Efficiency	92% Typical

ADDITIONAL DETAILS:

Operating Temperature	0°C +50°C
Operating Relative Humidity	10% to 90%
Net Weight	5.3 lbs / 2.4 kg
Size	85mm (H) x 150mm (W) x 200mm (L) / 3.4" (H) x 5.9" (W) x 7.9" (L)
Approvals	cTÜVus / TÜV / CB / CE / FCC / C-Tick / BSMI / RoHS / CCC
MTBF	100,000 Hours
Fan Size	140mm

New ECO Intelligent Thermal Control System

PRODUCT WARRANTY

This EVGA product has a **Limited 10 Year warranty**. For more information please visit: www.evga.com/warranty

80 PLUS® CERTIFIED PRODUCTS USE LESS ENERGY AND GENERATE LESS HEAT TO STAY COOLER, RUN QUIETER AND LAST LONGER; THEY ALSO LOWER YOUR OPERATING COSTS AND HELP TO PROTECT THE ENVIRONMENT.
