### PRODUCT OVERVIEW

Digital media grows exponentially everyday - photos, music, videos, documents, and so on. Connected homes need a reliable, affordable and simple storage solution that will centralize all multimedia content and make it accessible anytime, anywhere, and on any screen.

The ReadyNAS Ultra Family is a series of powerful network attached storage (NAS) with built-in media server capabilities that allow advanced home users to **store, share, and protect** their digital assets with confidence. The ReadyNAS Ultra Plus series offers the highest performance in NETGEAR's home storage lineup, up to 30% more performance than the ReadyNAS Ultra series. These diskless models are designed for home users who want maximum performance, and the ability to customize their own affordable and easy-to-manage storage solution.
