• To update your camera and set up Facebook Live for live streaming, just follow this step-by-step guide.

1. Update the 4GEE Action Cam app on your phone or tablet from the App Store or Google Play store.

2. You will be prompted in the app to update the firmware on your camera.

Note: For Capture Cam users, click OK, then go to settings > Camera > then select Camera Update.

Note: if you have already updated the firmware on your camera, this message will not appear.

During the camera update, you will see the below message.

3. You will receive confirmation of the camera firmware update once it completes.

4. To set up Facebook Live, click on the settings cog > Live stream > and click the Facebook logo

5. Log in using your Facebook username and password.

If you click the audience option already ticked, you will need to click on the back button to exit. You will be prompted to authorise your account again if you try to live stream.

8. To go back to the home preview screen , toggle back through broadcast settings>live stream>settings> Home screen

9. To live stream, tap live mode on your app and press the yellow shutter button.

10. During live streaming , the screen will remain blank.
